PROFILE:

I'm Abdelali Houmaidi, a full-stack web developer with a focus on front-end. Check out videos of my projects on LinkedIn, or visit my website and GitHub for more details. Connect with me on LinkedIn to stay updated and network.

SKILLS:

- ✓ Html & Css
- ✓ Tailwind CSS
- ✓ JavaScript & TypeScript
- ✓ Git & GitHub
- ✓ React & Next.js
- ✓ Node.js & Express.js
- ✓ MongoDB
- ✓ MySQL

INTERNSHIP EXPERIENCE (PFE):

Full-stack Web Developer | 25 Feb 2024 - Present

- During my internship at Cosumar, I developed Cosumar-Shop using HTML, CSS, JavaScript, PHP, and MySQL. The project featured:
- Add, update, and delete products in the panel
- View product details and total prices
- Responsive design for a seamless experience across devices
- This project enhanced my full-stack development skills by focusing on creating a functional and user-friendly management system.

SIDE PROJECTS:

Houmaidi Shop

Houmaidi Shop is a modern e-commerce platform built with Next.js 14, TypeScript, and Redux. It includes secure authentication (Clerk), product management, PayPal integration, and a responsive Tailwind CSS design.

Key Features:

- Secure login/registration with Clerk
- Product categories and detailed product pages
- Client-managed product additions
- Redux for state management (add, delete, show products)
- Cart and PayPal checkout with total price calculation
- Success payment and all-products pages

EDUCATION:

2022 - 2024 | Institut Spécialisé de Technologie Appliquée

Diploma in Digital Development Completed in 2024
